(a)
Wilson-Cowan physical response
$g_{max} = 1.88$
$t^\star = 2.10$
amplification
physical-state amplification
time t
local tangent
finite nonlinear perturbation
(b)
Kernel Koopman representation-space growth
amplification
$\|A_\lambda^n\|_{G_\lambda}$
time t
Laplace: $g_{max} = 1.68$, $t^\star = 1.35$
Matern32: $g_{max} = 2.86$, $t^\star = 1.75$
RQ: $g_{max} = 3.71$, $t^\star = 1.60$
RBF: $g_{max} = 4.71$, $t^\star = 1.55$
